Postdoctoral Scholar Positions
Program in Public Health
and Dept. of Population Health and Disease Prevention

University of California, Irvine

Four postdoctoral scholar positions are available immediately to study the epidemiology of malaria and population ecology of malaria mosquitoes and malaria parasites in Southeast Asia (China, Myanmar and Thailand) and Africa (Kenya). Areas of particular interests are: 1) malaria epidemiology (ecological and clinical epidemiology), 2) population and community ecology of malaria vectors, and 3) molecular population genetics of mosquitoes or malaria parasites. The positions will involve considerable field work in Southeast Asia or Africa. The candidates must hold a Ph.D. degree and possess a good publication record. Candidate for the first position should have a strong background in one of the following areas: epidemiology, ecology and statistics. Prior experience on mosquitoes or malaria parasites is not required.

Please email or send a letter describing your research interests, a CV and three reference letters.
