Pre-Advancement Planner – Masters of Public Health

Student Name: _____________________________  Entering Year: ________________

A student must earn a total of 60 units in the courses specified below for the Master in Public Health Degree. Please see the Public Health Graduate Student Handbook for other graduation requirements. **This document is to be used for the student’s planning purposes only.** The university and the department must verify completion of degree requirements. A grade of “B” or above must be earned in all courses in which a letter grade is assigned.

### Core Courses

<td></td>
</tr>
</tbody>
</table>

### Comprehensive Exam

Check when complete:  Part I □  Part II □

*Emphasis courses to be chosen from the list on the next page. Each course must be 4 units.

**PH 291 must be taken for at least two quarters.

The sequenced courses on this list count as separate courses towards the emphasis area requirements if each course in the sequence is at least four units. Students should consult with their faculty mentors to choose courses that complement each other to create a narrowly focused depth of knowledge in emphasis. Courses numbered PH 290 will need to be petitioned as the topics may vary widely. Petitions are also needed for classes outside the department that are variable topic or being taught for the first time. The petition must include a copy of the course syllabus.
EMPHASIS COURSES:

ENVIRONMENTAL HEALTH:

EPI 205 Environmental Epidemiology
PP&D 224 Environmental Politics and Policy
PP&D 231 Transportation and Environmental Health
PP&D 270 Environmental Ethics
PubHlth 265 Advanced Environmental Health Sciences
PubHlth 275 Risk Assessment
PubHlth 277A Target Organ Toxicology I
PubHlth 277B Target Organ Toxicology II
PubHlth 278 Industrial Toxicology
PubHlth 279 Special Topics in Environmental Health
PubHlth 283 Advances in Geographical Information Systems

EPIDEMIOLOGY:

EPI 201 Cancer Epidemiology
EPI 202 Genetic Epidemiology
EPI 205 Environmental Epidemiology
EPI 232 Chronic Disease Epidemiology
PubHlth 205 Advanced Epidemiologic Methods
PubHlth 208 Advances in Social Epidemiology
PubHlth 209 Methods of Demographic Analysis
PubHlth 212 Intermediate Epidemiology
PubHlth 213 International Epidemiology
PubHlth 214 Surveillance Systems
PubHlth 281 Infectious Disease Epidemiology
STATS 201 Statistical Methods for Data Analysis I
STATS 202 Statistical Methods for Data Analysis II
STATS 203 Statistical Methods for Data Analysis III

SOCIOCULTURAL DIVERSITY & HEALTH:

Chic/Lat 210A Cultural & Historical Precedents For Latinos & Medical Care I
Chic/Lat 210B Cultural & Historical Precedents For Latinos & Medical Care II
Chic/Lat 211A Latinos/Latinas and Medical Care: Contemporary Issues I
Chic/Lat 211B Latinos/Latinas and Medical Care: Contemporary Issues II
PSB 258 Health Psychology
PSB 262 Interpersonal Processes and Health
